

KemituraSil[®] – Fumed Silica

Treated, hydrophobic

Types: ◦ AM-1-120 ◦ AM-1-175

Characteristics

KemituraSil hydrophobic fumed silica is treated with silanes or siloxanes.

Applications

- ▶ Vinyl ester resin-based composites.
- ▶ Epoxy resin-based composites.
- ▶ PU resin-based liquids
- ▶ Paints & Coatings.
- ▶ Adhesives
- ▶ Silicone rubber and sealants.
- ▶ Cable compounds
- ▶ Printing inks

Property:

Thickening and Thixotropy, anti-settlings, anti-sag, moisture barrier, reinforcing, water resistance, free flow, anti cakings, hydrofobicicity.
