

Fumed Silica

## in Coating Industries

### Selection guidelines

Application	System	Properties	KemituraSil grades
Liquid Coating	Solvent-based & High Solids	Anti-settling, sag resistance	200/300/380 AM-1-175
	Acrylic, Polyester, Nitrocellulose	Sag resistance, rheology control anti-settling	200/380
	Vinylester, Epoxy, Polyurethane	Sag resistance, rheology control, anti-settling	200 AM-1-120 AM-1-175
	Marine and heavy duty industrial & Anti corrosion	Protection, moisture resistance	200 AM-1-120 AM-1-175
	Water based systems	Rheology control, corrosion protection	200 AM-1-120
High Solid- and UV-curing systems	All systems	Sag resistance, anti corrosion.	200 AM-1-120
Powder Coatings	Tribo-charging or Corona-ion equipm.	Free-flow, rheology control	200/300/380 AM-1-120
